

# State Bank of Cerro Gordo Bounce Protection®

## Opt-In/Opt-Out Form

State Bank of Cerro Gordo's overdraft service, also known as Bounce Protection®, is a privilege that is awarded to account holders who may need to use additional funds to save a customer or customers from embarrassment, additional fees or other problems that might result if a check is returned. Please read below to see a list of all transaction types that will utilize Bounce Protection® funds should a customer opt-in to the State Bank of Cerro Gordo Bounce Protection® program. In exchange for using Bounce Protection® funds, a customer or customers will be assessed a \$20 fee for every transaction that utilizes Bounce Protection® funds. The types of transactions that may utilize Bounce Protection® include:

- Checks and/or State Bank of Cerro Gordo Advice of Charges
- Bill Pay Items processed electronically and/or by paper check
- Internal transfers to any State Bank of Cerro Gordo accounts
- External transfers, also known as ACH Debits

State Bank of Cerro Gordo does not provide a limit as to how many times a customer or customers may utilize their Bounce Protection® funds. The only limit relies on the amount of overdraft protection each customer may have. Those dollar limits are \$400, \$600, and \$1,000 in overdraft protection.

It is every consumer's right to affirmatively consent to the State Bank of Cerro Gordo's payment of overdraft items by utilizing Bounce Protection® funds. Remember overdraft protection is a privilege and fees will be assessed should those funds be used to cover any of the transaction types as listed above.

State Bank of Cerro Gordo does offer alternative plans for covering overdrafts, such as connecting a checking account to a savings account or line of credit. This is called cash management, and funds will be "swept" from the desired account should the checking account ever fall below a specified dollar amount. However, there must be funds in the desired "sweep" account for the money to be transferred from in order to prevent overdraft fees and the embarrassment of a returned check.
